

OMNI T DAYLIGHT

VISUAL SENSOR

ZANIBONI®
INDOOR WELLBEING

PERFORMANCE

- Daylight Harvesting
- Bluetooth Mesh Qualified
- 360° Coverage Pattern
- Program Daylight/Occupancy/Vacancy
- Bluetooth controls within Zaniboni App

MOUNTING

Line voltage track

MATERIALS

Die-cast aluminum CNC machine finished Minimal thickness.

CAPABILITIES

The Daylight Sensor is track mounted Occupancy Sensor with a Photocell and Passive Infrared sensing capabilities. The sensor will automatically turn all the OMNI T devices on to the dimming level necessary to reach the set level of light intensity with or without daylight.

INSTALLATION INSTRUCTIONS

Mounting & electrical connection

S-DL-K17-DK-__

eg: S-DL-K17-DK-WH
White Omni T Daylight sensor, Line Voltage.

OMNI T Daylight sensor needs to be plugged into a multiple channel track system in a different channel from the one dedicated to lighting.

Technical data

Sensor Type	Photocell
Input Voltage	110-277 VAC
Current Consumption	50 mA
Max power	1.2W
Mounting Height	10'
Sensitivity	30lux to daylight
Dimension	3.66" dia

Compatible track

- Stucchi
- Intense Leviton
- Global
- Eaton Cooper
- Juno
- Altman Lighting
- Spectrum Lighting
- Zumtobel
